Safety Intervention Training

We can make an impact on your safety performance by improving the quality of the safety interventions of your workforce. We have over 10 years experience world-wide in the field of safety leadership training working predominantly in the Oil & Gas sector.

Our Interventions Training Track-Record:

- ❖ *Over 3000 people in Shell Americas engaged in ½ day workshops designed to improve the quality and frequency of safety interventions*
- ❖ *Workshop participants from diverse geographic locations from Anchorage to Rio.*
- ❖ *Program engages both technical and non-technical, operations and office-based personnel.*
- ❖ *Real results in increased frequency of interventions and commitment to raising the profile of interventions.*

What's different about a people=positive™ workshop?

- ❖ *Delegates are involved from the first moment in active participation*
- ❖ *Highly visual accelerated learning techniques*
- ❖ *Professional actors interact with audience to bring workplace scenarios to life*
- ❖ *Delegates 'freeze' the action and coach the characters to improve their intervention skills*
- ❖ *Participants encouraged to reflect at a deeper level and connect behavior with belief systems*

What do participants say about the workshop?

- ❖ *"The workshop exceeded my expectations and made me more aware of how to approach safety risks"*
- ❖ *"Having actors play the roles of real people was inventive and insightful"*
- ❖ *"Best safety intervention workshop that I have attended"*
